

COLUBAL NIGHT

SEVERAL CASES OF SHOES ARE TAKEN FROM ONE CAR AND SOME LARD FROM ANOTHER—SWITCH ENGINE FOREMAN CHASED ONE OF THE MEN.

Freight car robbers were busy during Tuesday night, and in one instance a man with some of the stolen goods was seen and given a chase near the passenger depot, but made his escape when his pursuer ran into a clothes line.

One car was broken into near the freight depot and several cases of fine shoes stolen. This happened before midnight, for the watchman had made his rounds a short time previous to the discovery by a switchman that the car had been broken into.

An hour or so later another car containing provisions was broken into near Alcaniz street. Foreman Dennard of one of the switch engines, before knowing the car had been looted saw a negro crossing the tracks with a case of lard on his shoulders. The negro ran as soon as he saw the foreman, and the latter gave chase. He was fast gaining on the negro when the latter dodged into the yard of a section house on North Tarragona street. The negro passed beneath a clothes line stretched across the yard, but Dennard did not see it and the line caught him under the chin, putting an end to his pursuit. The negro dropped the lard, which was recovered.

Are Ever at War.

There are two things everlastingly at war, joy and pines. But Bucklen's Arnica Salve will banish pines in any form. It soon subdues the itching, irritation, inflammation or swelling. It gives comfort, invites joy. Greatest healer of burns, boils, ulcers, cuts, bruises, eczema, scalds, pimples, skin eruptions. Only 25 cents at W. A. D'Alemberte's.

Order Revoked Sending Troops to Nicaragua

(Continued From Page One)

the capture and operation by the revolutionists of the railway between Managua and Corinto.

The junta assumes that the railroad is a national institution and should not be classed as American property, except as it is being administered by Americans to secure a loan by New York bankers.

WOMEN SHOT TO DEATH.

Reports that women were shot to death are emphatically denied by Ait-schul, who asserts the barbarous methods were employed by the government forces when women were sent to the lines as ammunition carriers.

Rebel firing upon flags of truce borne by local Nicaraguan troops as well as American marines is said to have been frequent within the last few days. New attacks upon women and children and other non-combatants are reported. In the rebel shellings of Managua during the first days of the revolution, American Minister Weitzel reported that the firing had been indiscriminate upon the section of the city occupied by non-combatants and that an American collector of customs named Ham and several other Americans narrowly escaped injury from bursting shells.

The United States is assured that the landing of troops has the approval of the Diaz government.

After a further demand by Minister Weitzel that Americans and their property must be protected from the rebels, the Nicaraguan government is understood to have confessed its inability adequately to meet the situation and frankly to have consented to permit the United States to land its own troops to protect its citizens.

The state department has proceeded upon the conviction that its action involves no infringement of the war-making power of congress or the president.

Officials point to the fact that there is even now an entire regiment of United States infantry engaged in policing the Chinese railroad from Peking to Chin Wang Pao and of course American troops have been employed in the maintenance of peace in Cuba. It is true that in each of these cases there was special warrant by treaty for the employment of American soldiers, but state department officials feel that a like obligation has been imposed upon the United States by the Dawson agreement which terminated the Yeliza rebellion. Besides the administration is said to be satisfied of its rights under the principles of international law to employ any part of the army and navy of the United States for the protection of American interests in a foreign country where the de facto government is either unable or unwilling to extend protection. Officials contend that such landing of American armed forces does not constitute war in any sense.

RECORDED HAD FEW CASES

Only twelve cases were on the docket in the recorder's court yesterday morning and four of them were continued. Two of the cases heard were discharged.

EXPECTS FLYING MACHINE TO GO 121 MILES AN HOUR

By Associated Press.

Paris, Aug. 28.—Jules Vedrines, the French aviator, expects his machine to attain a speed of 195 kilometres (about 121 miles an hour), in the race for the International aviation cup at Chicago in September. He is credited with this statement in an interview given before his departure for America.

COUNCIL HELD A BRIEF, BUT BUSY SESSION

CONSIDERABLE ROUTINE BUSINESS WAS DISPOSED OF AND A NUMBER OF IMPORTANT MATTERS WERE CONSIDERED AT THE REGULAR MEETING LAST NIGHT.

Last night's meeting of the city council was a rather brief, but busy one, quite a lot of routine business being disposed of and several matters of importance receiving the attention of the aldermen.

After the reading and adoption of minutes, the report of the board of bond trustees was received and referred to the finance committee. The report, which refers to the paving now being done in the city, is as follows:

Pensacola, Fla., Aug. 28, 1912.

To the Honorable Mayor and City Council, Pensacola.

Gentlemen: We hand you herewith statement of the cost of engineering, supervision and inspection of paving from March 5th, 1912, to August 14th, 1912, amounting to \$11,539.98.

Inasmuch as the amount has been paid out of the board's paving fund and the city has been given cash and paving assessment certificates for same, we request that the amount be returned to this board to be used "For the Grading, Paving, Curbing and Improving" of the streets of Pensacola as contemplated by the bond issue.

Respectfully submitted,
Board of Bond Trustees,
JOHN A. MERRITT,
Chairman.

F. F. BINGHAM.

Water Reductions Recommended.

The water and gas committee in making its report, recommended that the water rates be reduced, according to the scale published in The Journal a few days ago. The report was received and adopted and, der the proper heading, an ordinance providing for the reduction was introduced and placed on first reading.

The franchise committee reported favorably upon the ordinance requiring the L. & N. Railroad Co. to install and maintain safety gates at the intersection of Gadsden and Tarragona streets.

When the ordinance was read the second time Alderman Bear offered a resolution to require the gates to be installed at the intersection of Gregory and Tarragona streets, also, but, after hearing an explanation from Alderman Semmes, who introduced the ordinance, he withdrew the amendment.

Alderman Semmes explained that at

AFFLICTED WITH ECZEMA TEN YEARS

It Was Scratch, Scratch, Scratch, and Burn, Burn, Burn. Scorching Brought Sores Which Scabbed. Couldn't Sleep. Cuticura Soap and Ointment Cured in 2 Weeks.

1809 Little Walsh St., Baltimore, Md.—

"I was afflicted with eczema for about ten years, the most tormenting and agonizing. It was dry eczema all itching. It was scratch, scratch, and burn, burn, burn. By scratching I brought sores which scabbed. I tried all remedies which I knew or heard of, but none gave me temporary relief, but none permanent cure. I couldn't sleep for scratching after which there was burning. I saw the advertisement for free samples of Cuticura Soap and Cuticura Ointment and wrote for them. They did me good immediately and I then bought a box of Cuticura Ointment and a cake of Cuticura Soap. I was cured in two weeks."

(Signed) George Wooden, Jan. 21, 1912.

Not only are Cuticura Soap and Ointment most valuable in the treatment of eczemas and other distressing eruptions of skin and scalp, but no other emollients do so much for pimples, blackheads, red, rough and oily skins, itching, scaly scalp, dry, thin and falling hair, chapped hands and chapped lips, nor do it so economically. A single cake of Cuticura Soap (25c.) and box of Cuticura Ointment (50c.) are often sufficient when all else has failed. Sold throughout the world. Liberal sample of each mailed free, with 32-p. Skin Book. Address postcard "Cuticura, Dept. T, Boston."

Send Tender-faced men should use Cuticura Soap Shaving Stick, 25c. Sample free.

By Associated Press.

Paris, Aug. 28.—The pope is about to create a new American cardinal, who is to reside in Rome, according to a special despatch received here.

The American cardinal will occupy a position similar to that of the prelate representing France and Spain in Rome.

It is stated the pope will later create a cardinal in Central America, probably Mexico.

A RESOLUTION COMMENDS THE COUNTY BOARD

WAS INTRODUCED AT CITY COUNCIL MEETING LAST NIGHT COMMENDING COUNTY COMMISSIONERS UPON ACTION REGARDING OYSTER PERMIT IN BAYOU TEXAR.

One of the interesting features of the city council meeting held last night was the introduction of a resolution commending the action of the board of county commissioners of Escambia county in rescinding their recent action in granting a permit for oyster privileges on Bayou Texar, it being claimed that the persons making the application intended establishing an oyster reserve for commercial purposes.

It will be recalled that some months ago the board of commissioners granted a permit to some parties for an oyster reserve on Bayou Texar and later, after the board had been convinced that the persons to whom the permit was granted intended using it for commercial purposes, the permit was revoked. The substance of the resolution introduced last night, and which will be voted upon at the next meeting of the council, is to commend that action and to go on record as opposing the granting of any more similar privileges.

The resolution was introduced by Alderman Bear, by request, and, on motion, it was decided to furnish each alderman with a copy and vote upon the resolution at the next regular meeting.

The resolution is as follows:

Whereas, the attempt was recently made to establish a private oyster reserve for commercial purposes, of some twenty or more acres in extent, extending across, or practically across Bayou Texar, at or near where Cervantes street, Gadsden street and Jackson street intersect with said Bayou Texar and—

Whereas, in the opinion of the city council of Pensacola, such a reserve, or anything like it, would be a serious hindrance to the development of the section of the city, bordering on and adjacent to Bayou Texar, therefore—

Be it Resolved, that the city council of Pensacola commends the action of the county commissioners of Escambia county in rescinding its former action in granting the reserve, and

Be it Further Resolved, that the city council of Pensacola hereby puts itself on record as being opposed to the granting by the county commissioners of any further oyster reserve permits on and Bayou Texar between its junction with Pensacola bay and a line east and west across said bayou at the eastern extremity of Bayview Park, and hereby requests that no such permits be granted.

NEW TWO-CENT STAMP APPROVED BY HITCHCOCK

By Associated Press.

Washington, Aug. 28.—A new two-cent stamp in commemoration of the Panama Pacific exposition in San Francisco in 1915 was approved today by Postmaster General Hitchcock. It bears an engraving representing the Gatun locks of the Panama canal, showing a steamship emerging from the Northern lock and another vessel being raised in the Southern lock. The first issue will be on sale in a few weeks.

PLEASURE PARTY REACHES CARYVILLE AFTER FINE TRIP

Special to The Journal.

Caryville, Aug. 28.—A most delightful pleasure party arrived in Caryville yesterday evening from Sanford, Ala., via Geneva and down the Choctawhatchee river on a launch. The party consists of Mrs. G. O. Walts, wife of the general manager of the Henderson-Walts Lumber Co., and her three sons, James T., Sidney and Glover, Allen Gaskins, Miss Alma Halmer of Birmingham, Miss Grace Ham of Jackson, Ga., and Miss Maggie May Robinson of Andalusia, Ala., all of whom are now pleasantly occupying the beautiful cottage recently occupied by J. L. Strong and family. The entire party expect to remain in Caryville long enough to enjoy the delightful fishing up and down the Choctawhatchee river.

Dr. L. H. Paul has recently been employed as physician for the Henderson-Walts Lumber Co. at Caryville. He arrived here last evening and is

ANXIETY INTENSE OVER FATE OF FRENCH OFFICERS

By Associated Press.

Paris, Aug. 28.—Public anxiety was intense today over the fate of French officers held as hostages by the Moors at Marrakesh. Missions of emissaries have been dispatched by the French commander but have obtained no information.

General Lyautey, the French resident governor reported to the foreign office today that the volunteers who had undertaken the dangerous duty had returned from El Hiba's headquarters where they had in vain tried to effect a ransom.

The French column has been given full liberty to proceed to the succor of the hostages if such a step should be thought advisable. The French troops however are too fully occupied to do anything in that way as they have their hands full in blocking the progress of the Moorish pretender's forces towards Fez and Mazagan.

Profound indignation has been aroused throughout France by the report that the Spaniards had given assistance to El Hiba, whom it was alleged that they had supplied with arms. The French government has demanded official reports on the subject from its representatives in Morocco and if the allegations should be confirmed, an energetic protest would be made and a demand for the cessation of the traffic will be made at Madrid.

AMERICA LEADING IN MANUFACTURING AUTOMOBILES

By Associated Press.

New York, Aug. 28.—The thousands of automobiles produced annually by individual makers in this country must seem fantastic to the Frenchman who has a chance to find out how many cars are produced in the factories of his native land, once the leader of the automobile industry of the world.

A statistical expert here figures that the twenty-seven leading French makers produced a total of less than 26,000 cars in 1911. There are at least half a dozen concerns in this country which individually produce more cars than all of France, and a few of them that produce more than twice as many.

FURTHER PLEADINGS IN DEFENSE OF KOREANS

By Associated Press.

Seoul, Korea, Aug. 28.—Further pleadings were heard today in defense of the 123 Koreans charged with conspiring against Governor General Terauchi.

M. Takahashi, counsel for the prisoners, ridiculed the mention in connection with the conspiracy of the name of Bishop Merriman C. Harris of the Methodist Episcopal church. He said he believed the confessions of the prisoners were made voluntarily, but that they had exaggerated their connection with the conspiracy as they desired to appear as patriots.

He asked the court to take the Koreans, position into consideration, saying their feelings could hardly be im-

BURNED TO DEATH WHILE FLYING IN HIS MACHINE

By Associated Press.

Douai, France, Aug. 28.—Lieutenant Chanderien, of the aviation corps, was burned to death while flying in his airplane today.

He started from this city for Châlons. When he reached Grey-Sur-Seine his petrol tank burst into flames and the machine dropped. The young officer's body was completely consumed.

PLANT IN NEW YORK MAKING SPURIOUS HALF DOLLARS

By Associated Press.

Denver, Aug. 28.—That there is a plant in New York manufacturing spurious half dollars which are sent to various agencies throughout the United States is the confession made by Ignacio Moncini, an Italian ar-

Newbro's Herpicide Costs No More Than Something "Just as Good"

Why Take Chances

For a woman to adorn her head with false braids, puffs and rats, or a man to wear a topee, is like buying an off-brand hair preparation instead of Newbro's Herpicide. The "false hair" and the "off brand" are both substitutes for the real thing. The original is always conceded to be better than any imitation or substitute. "Something just as good" is a heresy of the rankest kind.

Newbro's Herpicide is the original remedy and does as promised. Years of success and thousands of satisfied users have made it stand out. Herpicide kills the dandruff germ, keeps the scalp clean and stops falling hair. It is

proper use before baldness appears makes false hair and wigs unnecessary.

Newbro's Herpicide in 50c and 10c sizes is sold by all dealers who guarantee it to do all that is claimed. If you are not satisfied your money will be refunded.

Applications may be obtained at any barber shops and hair dressing parlors.

Send 10c in postage for sample and book on "The Care of the Hair." The Herpicide Co., Dept. R, Detroit, Mich.

D'Alemberte's Pharmacy, agent.
